

# New TinySurveyor Plotter

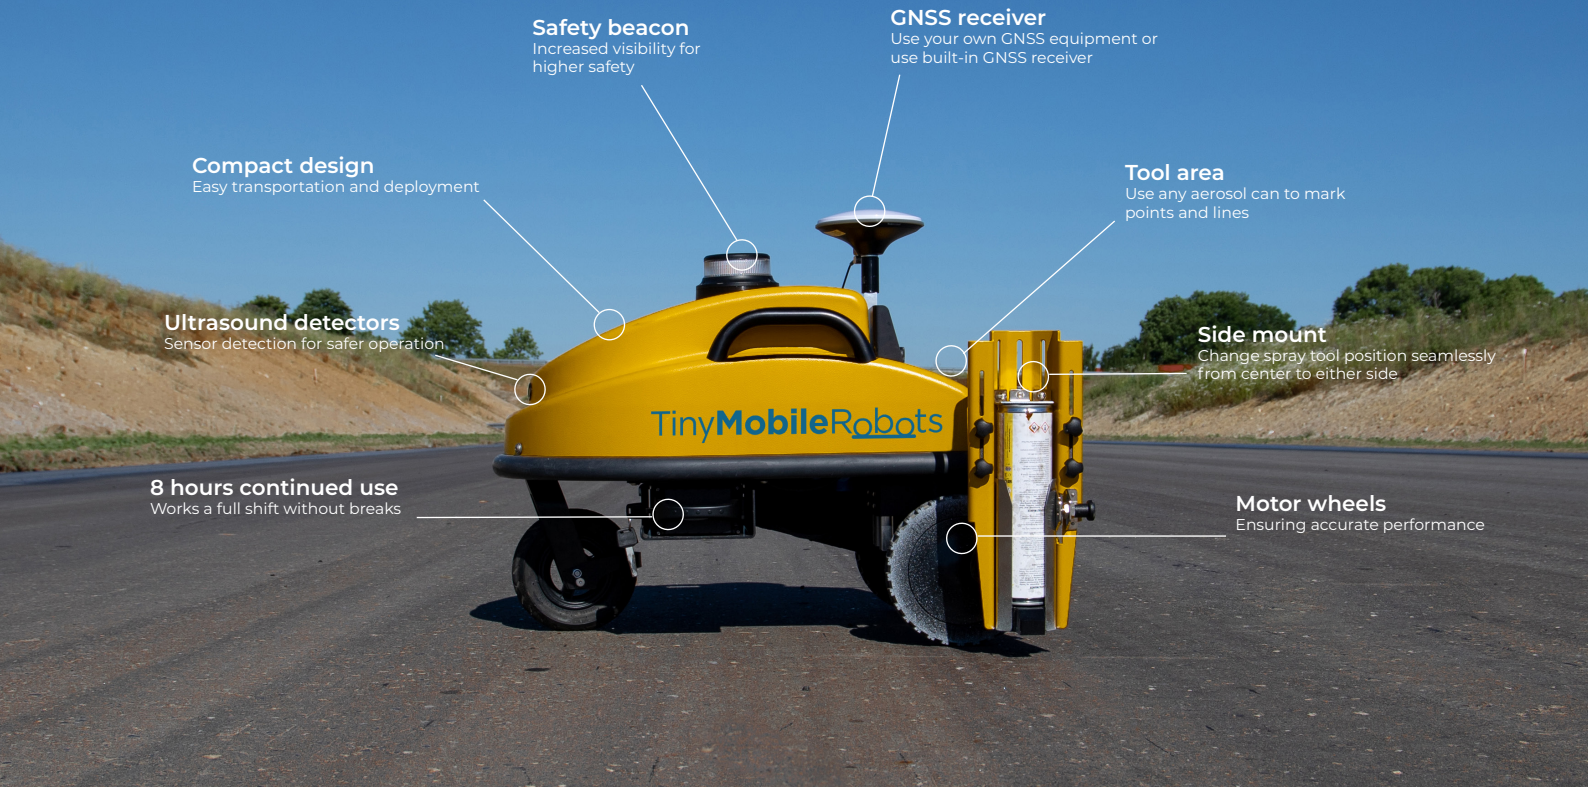

---

Small in size. Big on performance.

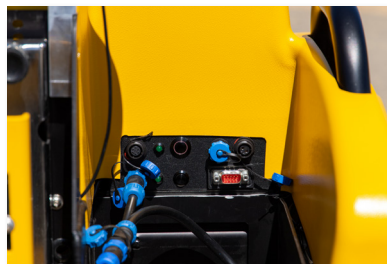

# Optimized for Road Pre-Marking

## Improved safety

This new road plotter comes with enhanced safety features, including

- Ultrasound detection
- High-visibility beacon
- Fit-a-flag option

## Connectivity

TinySurveyor Plotter offers a wide range of connection options:

- USB port
- RS232
- 12V outlet

## Designed for road works

The robot plotter can pre-mark roads 10 times faster than traditional methods with an accuracy of 1-2cm/0.4-0.8" using GNSS.
